White Lake - ours to preserve

ABOUT THE WHITE LAKE PRESERVATION PROJECT (WLPP) & WHITE LAKE PROPERTY OWNERS ASSOCIATION (WLPOA)

WLPP's goal is to study and document the chemistry, biology and physical characteristics of White Lake, Ontario, and to report on the condition of the lake, how the lake is changing, why it is changing, and what can be done to preserve and improve lake water quality. For more information, visit: wlpp.ca

WLPOA is a not-for-profit incorporated organization dedicated to the betterment of White Lake and its community. Learn more: wlol.ca

ABOUT WHITE LAKE, ONTARIO

- Headwater, off-shield, wetland lake that is primarily spring-fed
- Measures 22 square kilometres in area and has a single outlet at the north end
- Located in four municipalities and two counties

HOW TO HELP WHITE LAKE

- Contribute to data collection for the Lake Partner Program, a volunteer-based water-quality monitoring program for Ontario's inland lakes: desc.ca/programs/LPP
- Participate in the Natural Edge Program (naturaledge.watersheds.ca) to restore and protect your shoreline using native plants. This will also help reduce nutrient loading into White Lake.
- Download and assess your property using the free "Lake Protection Workbook: A Self-Assessment Tool for Shoreline Property Owners" (watersheds.ca/our-work/resources)
- Read WLPP and WLPOA's annual water quality and special reports to learn of the current state of White Lake and the science behind these changes: wlpp.ca/wlppwebsite_013.htm
